About

Aspiring junior developer based in Belfast, currently building skills in HTML, CSS, JavaScript, Python, website development and UI/UX design.

I am looking for a junior, trainee or IT support role where I can learn from experienced people and contribute to real projects.

Projects

YZN Studio Website Builder Project

Built a modern website for a digital and web design brand, focused on responsive design, user experience, service pages, pricing, showcase sections and clear navigation.

Website Projects

Built 3 website projects using HTML, CSS and JavaScript to practise layout, styling, debugging and making pages more user-friendly.
